

EZ FLIGHT

Take your display on the go with the EZ Stand Flight, a travel-ready version of the popular EZ Stand back wall. Designed to meet most airline carry-on size requirements*, this lightweight yet durable display system offers maximum convenience for exhibitors on the move.

Standing at 90" tall, the EZ Stand Flight features a 30mm diameter silver anodized aluminum tube frame that assembles easily without tools. The standard kit converts from 8ft to 10ft wide by simply adding or removing tubes—offering flexibility to fit different booth spaces.

The pillowcase-style dye sublimated fabric graphic slides over the frame for a seamless, professional look. Choose from single-sided graphics (with your choice of white or black back fabric) or double-sided graphics for full 360° visibility.

Every EZ Stand Flight includes a deluxe carry-on travel bag featuring wheels, a telescoping carry handle, multiple storage pockets, and pass-through ports for USB charging (battery pack not included). This thoughtful design makes transport and setup effortless—perfect for trade shows, presentations, or events that require quick, compact mobility.

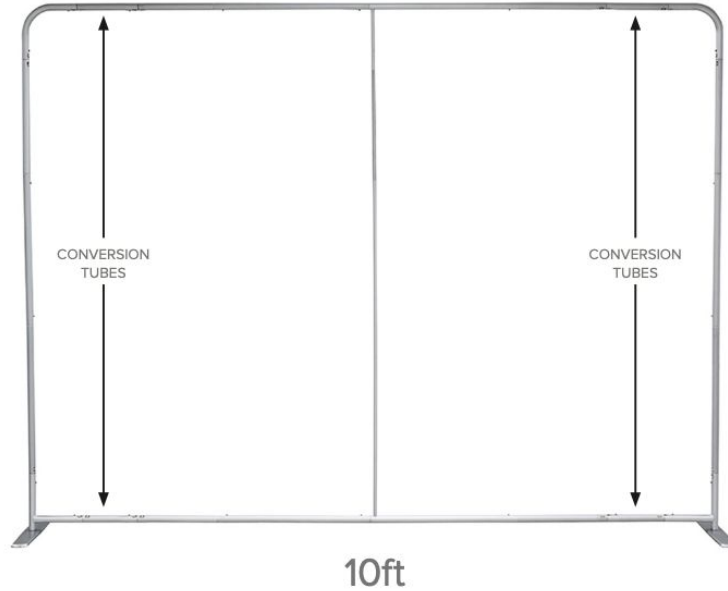

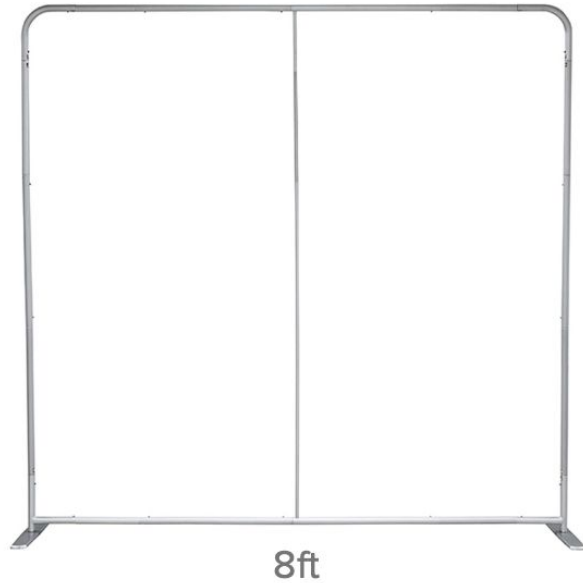

*Always check with your airline to confirm if the bag dimensions meet their current carry-on requirements.

OVERVIEW

- Travel tube display packaged in airline carry on travel bag
 - 30mm diameter anodized silver tube frame
