

SEGO 80

The SEGO 80 is the newest addition to the SEGO lightbox family. This version was designed for use as a single unit in store display, so it does not have the modular capabilities of its larger counterparts but still allows for double sided graphic display. The design of the SEGO 80 has been streamlined and now features an integrated transformer built into the frame so only a single power cable is exposed outside of the lightbox. Included as always with SEGO displays is a padded travel bag with foam inserts to keep your display secure and in place during storage and travel.

OVERVIEW

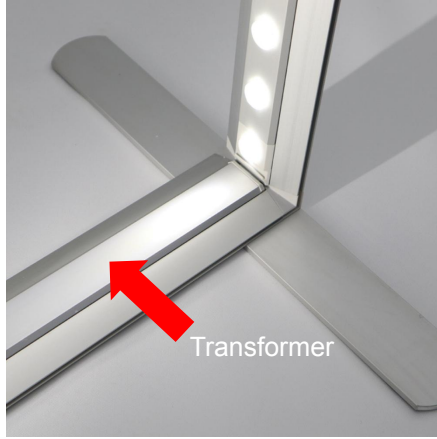

SKUs

- **SEGO-80-G2** (Graphic Package)
 - Graphic Packages are only double sided
- **SEGO-80-GO1** (Graphic Only)
 - Graphic Only option is for qty 1 print only
 - Customer will need to order qty 2 to replace both graphics on their frame
- **SEGO-80-HO** (Hardware Only)
 - 80mm wide aluminum extrusion frame with LED lighting
 - Tool free assembly
 - Includes travel bag
 - Foam padded with inserts for frame pieces
 - Available as a backlit product only - suggest QSEG if customer wants a non backlit equivalent
 - Transformer is integrated into bottom frame profile so only a single power cord exits the frame
 - Power cord is located in the center of bottom profile underneath the display
 - Power is controlled with the plug. There isn't an on/off switch on the display
 - Cannot connect to standard SEGO Modular Lightboxes
 - Only available in one size
 - Replacement parts are not stocked at the moment
 - SEGO-80 parts are not compatible with standard SEGO displays

OVERVIEW

LED lights run up both left and right vertical profiles of frame. There is no lighting on the top and bottom profiles. LED strips

Transformer is integrated into bottom profile of frame so only a single power cable exits the frame (transformer is not outside of frame like standard SEGOs) Power cable is located in the center underneath the bottom profile

Each frame includes a travel bag. Bag has zipper closure and carry handles on one side. The bag does not have a shoulder strap or wheels.

Travel bag open. Has foam insert with cutouts for each frame piece. Graphic is folded on placed on top of foam prior to closing bag.
