

# Spring Up Display Counter With Led Lights

## Assembly Instruction

### FABRIC

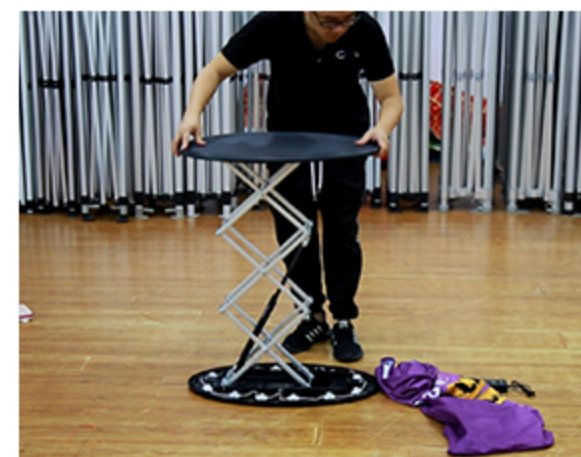

260g Backlit Fabric

### SIZE

70.1"x39.8" (178x101cm)

1 Take out the counter from the carry bag and lay it on the floor

2 Pull it up by your hands lightly, and the frame will expand immediately with the special spring mechanism design

3 Cover the graphic on to the frame

4 Push the board to collapse the frame, and secure the graphic to the top and bottom boards of the counter using silicon strips sewn on the graphic edge

5 Pull the top board with your hands to expand the frame again

6 Unzip zipper on the side corner of the graphic, then connect the power supply to light the lamps.

7 The display counter is ready to use
